

Upcoming PC Visual Novel "Algorithm Prescription" Launches Steam Store Page and New Trailer! Starring a Talented Voice Cast: Toshinari Fukamachi, Haruki Ishiya, and Shunichi Toki. !

Tokyo, Japan — The Game Business Division of the Innovation Promotion Department at **Shochiku Co., Ltd.** is excited to announce that the official Steam store page for its upcoming PC visual novel, *Algorithm Prescription*, is now live.

In conjunction with the page launch, Shochiku has revealed that popular voice actors **Toshinari Fukamachi**, **Haruki Ishiya**, and **Shunichi Toki** have been cast as the three main romanceable characters.

■ Steam Store Page for "Algorithm Prescription" is Now Live!

Algorithm Prescription is a visual novel built on the gripping concept of "Romance x Suspense." Ahead of the free demo scheduled for release in Q2 2026, the official Steam store page has been launched. Additionally, a brand-new trailer has been released to mark the occasion. The trailer was produced by the highly acclaimed creator **Emumelo**.
